SUMMARY

Highly motivated and eager to learn web developer intern with experience in Wireframing & prototyping, HTML, CSS, JavaScript and Bootstrap, seeking an opportunity to gain hands-on experience in a professional environment. Strong problem-solving skills, attention to detail and ability to work in a team make me a valuable addition to any web development project.

PROJECTS

Wireframing & prototyping

Balsamiq Wireframing tool

- Worked as a UI/UX designer on several projects where I was responsible for creating wireframes and prototyping.
- I have Created wireframes for an Online Pharmacy store and an event management system using Balsamiq.

Web Development (Final Year Project)

Online Car Accessories Shop

- As a part of my final year project, I developed an Online car accessories shop website using HTML, CSS, JavaScript, Bootstrap, PHP and MYSQL.
- My specific responsibilities included coding, designing and developing the website.
- I also assisted with inventory management, payment gateway integration.
- I have hands on experience in building and maintaining e-commerce websites and have knowledge of best practices for web development, team collaboration, and user-centered design.

Front-end Web Development Projects

Educational website

- As a part of my web application and development course internship week, I had assigned a task to develop an educational website on Borhan using HTML, CSS, JavaScript, and Bootstrap.
- My specific responsibilities included coding, designing and developing the website.
- I also assisted with mobile optimization, user interface design and user experience design principles.
- I have develop Home Tutoring Quran website using HTML, CSS, JavaScript and bootstrap.
- I am proficient in front-end technologies such as HTML, CSS, JavaScript and Bootstrap.
